I joined Target through a scholarship test called NTTSE, which provided me a fee waiver due to my good score in NTTSE. I gained a lot in Target during my preparation. The syllabus was systematically covered within the deadlines followed by further revisions and regular module discussion classes. The test series was well designed to trick the students in every question. I was always an average student but I started to feel confident with time due to the regular assignments provided. The assignments were designed in such a manner that they covered every minor topic and sub-topic in the chapter, I am really thankful to Target for everything.

I joined Target in May 2018 to prepare for NEET in one year dropper batch. The best thing about Target is the faculty team. The faculties not only teach. They give us a sense of visualization of the subject. That is the reason I developed interest in studies. Here, I realized that clearing NEET, however is not a cake walk, yet it is not that difficult as I used to believe earlier. The competitive and relevant test pattern helped me to learn time management in exam. Needless to say, the credit of all my success goes to my parents and Target Institute. Thank you Target

## Director's Message

**Welcome to TARGET IITJEE -PMT CLASSES.** It gives us immense pleasure to present, a unique 21<sup>st</sup> Century Coaching Institute. I had the opportunity to work in the places which are considered hubs of IIT-JEE/PMT coaching like Delhi and Kota. At all these places, the things common were quality of education offered.

The mark of any coaching institute lies in the quality of values it delivers to the rest of the world. These values must always be solid, professional and positive. That is what you were looking for and that is why you have come to the right place. Your ward would have entered Secondary School/Class – X, XI which is a crucial milestone in his/her academic as well as life journey. We understand your concern and anxiety in finding an institution which could provide your ward with everything that he/she needs to take his/her steps into the best Engineering and Medical institutions in the country. We sincerely want to work together to make TARGET a place in which parents believe their children are receiving an education second to none.

Our aim is therefore to help student clear hurdles and make them confident toward their preparation through rigorous practice systematically, possible for even middle-class and lower-middle-class students.

I am very grateful to each and every member of the TARGET Fraternity Our Staff who know very well how to synchronize and harmonize with our process of growth. Our Students who constantly show by their performance and conduct that it makes a difference to be a student of TARGET; and last but not the least Our Parents whose trust inspires us to move ahead ...!!!!!!.

## About US

**TARGET IITJEE -PMT CLASSES™ : History :** - Practice, persistence and performance when inculcated in the meticulous guidance of master minds are sure to produce the output of excellence in terms of career and development of holistic personality, and this is the mere objective of our brand. An extra ordinary combination of spiritual values and modern technology is what TARGET is. TARGET has a significant education system with a humble birth and an institution where no student is ever neglected, where every action and thought is student oriented.

**OUR BACKGROUND :-** India is the second most populated nation of the world. It also possesses a very young population. If India is to reap its demographic dividend, then education is going to be a key driver for it. As things stand today, there is a dearth of quality education and Institutions delivering the same. TARGET firmly believes in the commitment based Education System in which both faculty and students feel free so that target to crack IIT -JEE / NEET(AIPMT) or any other competitive exam becomes easier. TARGET formally launched its Distance Learning Programs through its DLP Division during the Academic Session 2007-2008 looking at the need of students who cannot leave their native places for education.

**TARGET** is a multitude of educational support programs where for last 10 years the new standards have been set in academic training. The various areas in which Target currently specializes in training students are: **IIT-JEE (ENGINEERING), NEET (PRE-MEDICAL) & FOUNDATION (VIII TO X) Division,**

Here, we end by saying that No one is perfect but we would try our best to give you the best so that you come out being the best.

**Warm Regards,**  
Target IITJEE-PMT Classes™

Joining Target is one of the best  
decisions of my life. I thank all the  
faculties to keep their constant  
support. Every topic was deeply  
discussed in class with live  
examples which helped me  
develop my interest in subject.  
The end moment mock tests were  
really helpful. The regular tests  
helped me master time  
management in JEE Mains and JEE  
Advanced.

FEEDBACK

I heard of Target from one of my  
friends. I joined Target batch.  
Initially the things were difficult  
to me because of regular tests  
and daily practice sheets. But all  
that pressure went in my favour  
and things were conducive to  
my result. I find no words I can  
use to thank the teachers which  
guided me and inspired me at  
every stage of my preparation.

Target offers admission to those students who could not perform well in their board exams and thus want another chance to showcase their potential for medicine or engineering as career. For such students, we have a provision for an admission test, where we test the basic knowledge of the student.

The syllabus of the admission test is different for different courses and can be obtained from the information desk at the concerned / applying Centre.

The admission test also gives an opportunity to a student to outperform and get scholarship in turn. A student, who has qualified our direct admission (Merit Award) criteria, can also appear for TSCAT in order to avail scholarship.
